About this Assessment

The GACE Art Education assessment is designed to measure the professional knowledge of prospective teachers of Art Education in the state of Georgia.

This assessment includes two tests. You may take either test individually or the full assessment in a single session. The testing time is the amount of time you will have to answer the questions on the test. Test duration includes time for tutorials and directional screens that may be included in the test.

The questions in this assessment assess both basic knowledge across content areas and the ability to apply principles.

The total number of questions that are scored is typically smaller than the total number of questions on the test. Most tests that contain selected-response questions also include embedded pretest questions, which are not used in calculating your score. By including pretest questions in the assessment, ETS is able to analyze actual test-taker performance on proposed new questions and determine whether they should be included in future versions of the test.

Content Specifications

Each test in this assessment is organized into content subareas. Each subarea is further defined by a set of objectives and their knowledge statements.

- The objectives broadly define what an entry-level educator in this field in Georgia public schools should know and be able to do.
- The knowledge statements describe in greater detail the knowledge and skills eligible for testing.
- Some tests also include content material at the evidence level. This content serves as descriptors of what each knowledge statement encompasses.

See a breakdown of the subareas and objectives for the tests in this assessment on the following pages.

## Test I Objectives

**Subarea I: Elements and Principles of Art**

**Objective 1: Understands art elements and principles in two-dimensional (2-D) and three-dimensional (3-D) media and how they communicate meaning**

The beginning Art Education teacher:

- A. Identifies how elements and principles of design communicate meaning in visual art
- B. Explains relationships of elements to principles
- C. Distinguishes uses of elements and principles in 2-D and 3-D art

**Objective 2: Understands various methods of creating meaningful compositions**

The beginning Art Education teacher:

- A. Defines and identifies historical compositional methods; e.g., golden mean, hierarchical organization, perspective
- B. Defines and identifies contemporary compositional methods; e.g., juxtaposition, appropriation, transformation
Subarea II: Media, Techniques, and Processes

Objective 1: Understands safety, environmental, and storage issues related to the use of art materials and processes

The beginning Art Education teacher:

A. Identifies and categorizes dangerous materials and their effects
B. Describes proper ventilation, storage, and disposal procedures based on the medium.
C. Demonstrates understanding of safety procedures and precautions for using artists’ materials and tools
D. Demonstrates knowledge of health issues related to the use of materials and tools for art making; e.g., toxicity
E. Demonstrates knowledge of material safety data sheets (MSDS) sheets

Objective 2: Understands how to use a variety of drawing, painting, photography, and printmaking materials and processes

The beginning Art Education teacher:

A. Identifies characteristics of materials
B. Identifies similarities and differences among materials and connections between media and meaning
C. Knows vocabulary related to drawing, painting, and printmaking materials and processes
D. Describes drawing, painting, and printmaking processes, including mixed and multimedia works
E. Identifies and solves technical and creative problems
F. Compares materials and techniques and analyzes the compatibility of materials and techniques
G. Recognizes or identifies processes as depicted in photographs

Objective 3: Understands how to use digital image processes

The beginning Art Education teacher:

A. Demonstrates basic camera knowledge; e.g., camera parts, vocabulary
B. Demonstrates knowledge of common editing and imaging software
C. Demonstrates knowledge regarding the uploading, downloading, and storing of common file types (e.g., .jpg and .tif) and the transferring and printing of images
D. Knows and understands the process of creating digital images
Objective 4: Understands how to use three-dimensional materials and processes

The beginning Art Education teacher:

A. Identifies characteristics of materials
B. Identifies similarities and differences among materials and connections between media and meaning
C. Knows vocabulary related to 3-D materials and processes
D. Describes 3-D processes
E. Solves problems and evaluates possible solutions
F. Compares materials and techniques and analyzes the compatibility of materials and techniques
G. Recognizes or identifies processes as depicted in photographs
